

"The Necklace" Symbolism

Objectives: to demonstrate understanding of symbolism, locate text evidence to support a claim, write a paired passage open-ended response, and embed textual evidence.

You will choose 2 pieces of construction paper, 1 small and 1 large. Students should choose lighter colors (no black or your writing will not show up).

1. Cut out 4 diamond shapes from the smaller piece of construction paper. Use the template below to trace and cut.
2. On the FRONT of each of these diamonds, write the answer to the following four questions.
 - A. What does the diamond symbolize when Mathilde first sees it?
 - B. What does the diamond symbolize at the party?
 - C. What does the diamond symbolize after she loses the necklace?
 - D. What does the diamond symbolize at the end of the story?
3. Turn the larger piece of construction paper horizontally. At the top, write the title: "The Necklace" Changing Symbolism and Theme by (your name)
4. Draw a large necklace on the rest of the construction paper, but leave room to attach the diamonds onto the necklace at the bottom. Be creative with how you design your necklace.
5. Glue only the top part of each diamond down so they can be lifted up.
6. Under each diamond (on the larger piece of construction paper), you will write textual evidence (quote) that supports your answer WITH THE CITATION.
7. In the middle of your necklace, you will hand write or type out a final copy of your paired passage response with Jessie J's "Price Tag." This must fit inside the middle section of your necklace. Don't forget to indent your paragraph!
8. Add color, detail, and pizzazz!!!

Put glue HERE

Just a dot!
